About Our Chapter.....9

Welcome...

Fellow Chapter Members.

As we start the 2012 chapter year for the Greater Cincinnati ISACA Chapter, we have an exciting line up of speakers for monthly meetings and instructors for seminars.

Our first seminar will be held October 24th and 25th at the Montgomery Inn in Montgomery, OH. The Greater Cincinnati ISACA Chapter is proud to present a two-part seminar: Assessing Your Protection of PII Program and Securing Mobile Assets and Applications.

The first day of this seminar will discuss PII scope and definitions; state and federal PII requirements; International considerations; and action plans for compliance, including building a framework for PII. The second day of this seminar will discuss governance to control mobile assets; ensuring mobile devices and applications satisfy the components of the CIA triangle; security issues related to mobile applications and their development; issues related to Apple, Blackberry, Android, Windows, and Bluetooth platforms; authentication, encryption, and non-repudiation; multi-platform mobile environments; and provisioning, patching, and back-up in the mobile environment. The instructor, Jeff Kalwerisky is the Senior Director of Information Security and Technical Training at CPE Interactive. Jeff has specialized in information security, information risk management and IT auditing for over 20 years. He currently focuses on information risk, IT security governance and frameworks, and secure software development.

We welcome both members and non-members to the seminar. Further details regarding the seminar and logistics can be found on page 3 and 4 of this newsletter or to register for the seminar, please visit our [webpage](#).

Please contact me (Justin.Hedric@53.com) if you have any questions regarding this or any future seminars.

Justin Hedric
VP of Professional Development

Sustainability and Green IT/IS Initiatives and Assurance

Speakers: Jeff Merhout, Ph. D., CPA (inactive), Miami University

Shu Schiller, Ph.D., Wright State University

Date & Time: October 4th, 2011, 5.30pm

Location: The Original Montgomery Inn, Montgomery, OH

Overview:

The purpose of this seminar is to discuss Green IT/IS Initiatives and how they become an integral part of corporate strategy to achieve sustainability. Sustainability can be interpreted in many different ways to different people; however, in business, it is usually in the context of the triple bottom line: economic/financial, social, and environmental.

In the domain of information systems, discussion of sustainability often includes green IT and green IS, two closely related, but nonetheless distinct concepts. Furthermore, sustainability in information systems also raises risk management issues and presents assurance opportunities. For example, large CPA firms are offering services around sustainability including third-party assurance of non-financial metrics and benchmarking related to carbon management and reporting. Corporate auditors might also have to address other issues, such as corporate sustainability reporting (CSR), greenwashing, IT asset disposal services, and data center energy management.

About the Speakers:

Jeff Merhout is an Associate Professor of MIS in the Farmer School of Business at Miami University where he has been on the faculty since January 2003. He holds a doctorate in business from Virginia Commonwealth University. He teaches the core MIS course to business school sophomores, including the Honors sections. He also teaches IT governance, risk management, controls and security to undergraduate MIS majors and minors and to Masters of Accountancy students. His research interests include investigating the necessary knowledge, skills, and abilities for entry-level IT employees, including IT auditors. He has also investigated the key factors related to quality IT audit engagements. His most recent research interests relate to sustainability issues in business, and particularly in Green IT/IS and related assurance issues. He welcomes research collaborators from industry.

Shu Schiller is an Associate Professor of Information Systems in the Raj Sooin College of Business at Wright State University. She holds a Ph.D. in Business Administration from the Fox School of Business and Management at Temple University. Dr. Schiller's research focuses on green IS/IT, social media, virtual teams and worlds, and computer-mediated communication. Her publications appeared in journals such as Small Group Research, Journal of Information Systems Education, Information Systems Frontiers, Journal of Global Information Technology Management, and Database Management.

Please register by September 30.

Cincinnati ISACA members and non-members can register by using the [link](#) at the chapter website or by sending an email to isaca_meetings@yahoo.com if you prefer to pay at the door.

Remember to save the dates for our upcoming meetings:

Tuesday, November 01, 2011 - Kevin McLaughlin, University of Cincinnati - Cyber Warfare

The Cincinnati ISACA Chapter is proud to present.

The PII and Mobile Security Seminar

Mark your calendar and register for this two-day course on Assessing Your Protection of Personal Identifiable Information (PII) Program and Security Mobile Assets and Applications. Earn **14 Continuing Education (CPE) credits** for this course.

Day 1

One of the unintended consequences of the information age is the availability of Personal Identifiable Information (PII). The combination of name, date of birth, and Social Security Number are the keys to the kingdom for the purposes of establishing false identity and fraud. Governmental entities have established a patchwork quilt of laws requiring custodians of personal information doing business in their locality to provide safeguards and assurance that PII is secure. The first day of this seminar will discuss PII scope and definitions; state and federal PII requirements; International considerations; and action plans for compliance, including building a framework for PII.

Day 2

Employees and customers are moving from the corporate offices to customer sites; working in trains, planes and automobiles, using smartphones and tablet computers to access every kind of sensitive corporate data. This is a revolution that is already happening and is likely to accelerate as mobile applications confer business advantages. Unsurprisingly, malware is on the move, too, with new generations of viruses, Trojans and worms targeting mobile devices as well as ubiquitous mobile services such as SMS messaging, and Bluetooth/WiFi connectivity. This course addresses the business advantages of mobile computing as well as the emerging issues of how to control mobile devices, protect corporate assets and maintain compliance with relevant legislation and data privacy standards. The second day of this seminar will discuss governance to control mobile assets; ensuring mobile devices and applications satisfy the components of the CIA triangle; security issues related to mobile applications and their development; issues related to Apple, Blackberry, Android, Windows, and Bluetooth platforms; authentication, encryption, and non-repudiation; multi-platform mobile environments; and provisioning, patching, and back-up in the mobile environment.

Instructor

The instructor, Jeff Kalwerisky is the Senior Director of Information Security and Technical Training at CPE Interactive. Jeff has specialized in information security, information risk management and IT auditing for over 20 years. He currently focuses on information risk, IT security governance and frameworks, and secure software development. He has held executive positions in information security and risk management with Accenture and Booz Allen Hamilton consulting firms. In both of these capacities, he has consulted with Fortune 100 companies and national governments. As manager of global security for VeriSign, Jeff was responsible for ensuring that affiliate companies in 30 countries adhered to VeriSign's military-grade security standards appropriate to a global certification authority, which he helped to design and deploy. Jeff was a partner with a major audit firm in South Africa and a consultant with PricewaterhouseCoopers. He has published security and audit guides, and has developed training courses throughout the USA and internationally on a wide range of technical topics.

Jeff is originally from South Africa, where he received a Bachelor of Science in Physics and Math, a Masters of Science in Computer Science from University of Witwatersrand, Johannesburg, and Masters in Finance and Auditing from the University of South Africa, Pretoria. He is a Chartered Accountant (SA) and Certified Information Systems Auditor.

The PII and Mobile Security Seminar ..CONTD.

Timing and Location

Two days: Monday, October 24th and Tuesday October 25th 2011 from 8:30 a.m. to 5:00 p.m.
Montgomery Inn (513-791-3482), 9440 Montgomery Road, Montgomery, Ohio 45242
Free Parking is available behind the restaurant and across the street.
Continental breakfast and lunch provided both days. Montgomery Inn is noted for its food!

Tuition

The ISACA Greater Cincinnati Chapter is helping to provide this training at a much reduced price; technical training from a comparable source is typically \$1500 or more. To ensure an interactive and comprehensive course, space has been limited to 30 participants.

Our deadline to cancel with the instructor is October 14, 2011. Please register by this date so that we can best measure interest in the seminar. Price incentives have been applied to recognize your timely response.

\$400 for members of ISACA (\$600 for non-members) until October 1, 2011

\$500 for members of ISACA (\$700 for non-members) after October 1, 2011

Registration

To register, send a note to the coordinators below with the name of the participant and email.

Register and pay on-line at the website (www.isaca-cincinnati.org) or send your checks with attendee name to: Greater Cincinnati ISACA Chapter, P.O.Box 54752, Cincinnati, Ohio, 45254.

Cancellations

You are not registered nor will you have a guaranteed spot until payment is received. A cancellation fee of \$100 will be applied to the refund if notification is less than 15 days prior to the course to pay for non-refundable materials and venue costs. If you are unable to attend, you may send someone in your place and inform us of the substitution.

For enrollment, questions, or cancellations, email any of the following contacts:

Justin Hedric (justin.hedric@53.com); Joe Lairson (joseph.lairson@omnicare.com); Holly Johnson (hajohnson@gaic.com)

How to Earn and Report CPE

Did you know that ISACA certified members can earn more than 70 FREE CPEs per year!

ISACA certified members have several options to obtain their continuing professional education credits. Several of these choices are listed below with specific instructions.

Journal quizzes: Earn one CPE for each of six [journals](#) per year. 6 FREE CPEs per year

Monthly e-Symposia quizzes: Earn three CPEs for each of 12 [e-Symposia](#) per year. 36 FREE CPEs per year

Serving as an ISACA Volunteer: Participate on an ISACA or ITGI board, committee, task force or as an officer of an ISACA chapter, and gain one CPE credit (up to 20 per year) for each hour of active participation. (Consult Qualifying Educational Activities for CISA, CISM, CGEIT and CRISC members.) 20 FREE CPEs per year

Mentoring: Earn one CPE for each hour of mentoring efforts directly related to coaching, reviewing or assisting an individual with CISA/CISM/CGEIT/CRISC exam preparation or providing career guidance through the credentialing process. 10 FREE CPEs per year

TOTAL Possible FREE CPEs for ISACA Certified Members: 72 FREE CPEs per year

How to Report CPEs in your Profile

CPEs are reported annually during the renewal process. CPEs earned in the current year may be entered in your profile once the next year's renewal period opens. Reporting of CPEs can be done online or by submitting the information on the annual renewal invoice.

To update CPE hours through the ISACA website, log on using your personalized log in credentials and follow the steps below.

Click on the **MY ISACA** tab at the top of the page

Click on the **MY CERTIFICATIONS** tab

Click on the **EDIT MY CPE Hours** link

The CPE reporting is located on the My Demographic, Certification CPE and Other Information tab. Scroll to the bottom of the page to view and edit the appropriate CPE fields. If you do not see a CPE section, CPE hours are not being accepted or you are not required to report CPEs yet.

Enter CPE hours – then click **SAVE** at the bottom of the page

For more information about the specific Continuing Professional Education (CPE) requirements for your certification, please see the following [link](#).

I hope you have found the additional content in the newsletter beneficial. Our main goal is to bring you information that you will find useful; hence, I always welcome your comments and suggestions.

Additionally, please don't hesitate to contact me if you have any content that you would like to be included in the newsletter.

Some examples of articles/content include:

1. Your most interesting audit/lessons learned from an audit
2. Your take and/or opinion on the latest PCAOB standard/update
3. Any topic you feel you can speak on (keeping your audience in mind)
4. Open positions at your organization that would be a good fit for ISACA members
5. Live or virtual opportunities to earn CPE credits.

Please email me at buky.thorpe@gmail.com with any article or content you would like to be included in the newsletter.

Thank you,
Buky Thorpe

About Our Chapter

The Greater Cincinnati ISACA Chapter is a not-for-profit professional association serving the information technology audit, security, and control community. We support the areas of Cincinnati & Dayton, Ohio and Northern Kentucky. The chapter consists of over 400 professionals that represent a cross-section of the public, private, and not-for-profit business sectors at all levels within those industries.

Purpose

To promote the education of individuals for the improvement and development of their capabilities relating to the auditing of and/or management consulting in the field of Information Technology audit and control.

Please visit the chapter website at www.isaca-cincinnati.org to learn more. Connect with other chapter members by joining the Greater Cincinnati ISACA LinkedIn and Facebook groups!

Visit www.isaca.org to learn more about the organization.
